

Our commitment to servicing our customers with quality product at competitive price and on-time delivery is backed by our continued investment in our equipment. Our employees and in our systems . ABIS is a full service molding that a 12 000 square foot facility housing our molding department in-housing mold making , quality control. Warehousing secondary operations and offices , If we find a client's product concept would be too costly to manufacture . We will assist the customer in designing parts that not only can be manufacture but one that can be made cost-effectively from prototype to production. With our extensive experience we are confident .We have the solution to your next injection molding application.

Product Description

Part Name	PC Jar preform mold for Sport Bottle 8 Cavity
Description	Household Appliance
Country of Original	ShenZhen, China (Mainland)
Brand Name	ABIS
Lead Time	25-35Days

Payment Terms

1. T/T: 40% Deposit,30% upon T1 Sample,30% Balance before shipment
2. L/C: irrevocable 100% L/C at sight.

General Information

Item#	Item	Description
1	Product Name	PC Jar preform mold for Sport Bottle 8 Cavity
2	M o l d b a s e	LKM;HASCO;DME
3	Mold Material	S136 (HRC46-48) stainless steel
4	Product material	Plastic
5	Cavity	Multi Cavity
6	Structure	Independent self-lock
7	Runner type	Hot/cold runner
8	Design software	UG,PROE,CAD,SOLIDWORK
9	Surface treatment	Mirror Polishing
10	Mold life	1 million shots
11	Plastic Material	PC

12	Transportation	By sea, by air or by land as you request
13	Package	According to clients requirement
14	Shaping Mode	Plastic Injection Mould

Processing Equipment

NAME OF MACHINE	BRAND	Q'TY	PLACE OF ORIGIN
CNC	DMG	1	Germany
CNC	YCM-FP66A	2	Taiwan
EDM AQ35L	SODICK	3	Japan
Wire EDM AQ327L	SODICK	2	Japan
EDM	CHARMILLES-35P	2	Swiss
EDM	TAIWAN NUMERIC CONTROL	6	Taiwan

Company

Information

ABIS was founded in Shenzhen China, adjacent to Hong Kong, in 1996, has its own factory of 12,000 square meters. With the advanced facilities from Germany, Swiss and Japan, and a highly experienced design and engineering team, ABIS builds multi-cavity molds to exacting tolerances, providing the critical structural foundation for leading manufacturing companies to produce high precision mold.

QC Control

Mold Making QC main steps

Mould Design Control : Design review checklist before submitting to the customer. We will not start the steel purchasing work until get your written approval on our mold drawing.

Incoming quality control: all steel material and outsourcing standard components will be checked to ensure that they are in accordance with the BOM(QTY and material/components name specified).

In process quality control: all the machining and assembling process is under control, we have QC team to check and supervise the tolerance and processed surface to satisfy the requirements. (Mould Steel Hardness Inspection, Mould Electrodes Inspection, Mould Core and Cavity Steel Dimension Inspection , Mould Pre-Assembly Inspection)

Final quality control: within 3 days the completion of the plastic mold, we will have a thorough check for the main size of the molded plastic sample and mold to ensure that the critical or full dimension (if required) are within tolerance.

Mould Pre-Shipment Final Inspection : Free-fumigation three-plywood case packing; make sure the mold is conformity to the approved mold drawing. The spare components and easily broken components and the electrode (if required) are packaged, as well as the mold drawing and some certificated.

Plastic Molding QC main steps

Vernier caliper measurement is performed by trained operators when the first product is produced on our machine, we check the contour dimension and assembly status (if exist) to identify if any.

The molded parts are then inspected again by experienced QA department for the full dimension, especially the critical dimensions set by customer. If a quality result was recorded at the same time. Result will be to our QC Supervisor directly. If any unqualified dimensions (if exist) are caused by uncontrolled factors or our mistakes and we will take the related actions to improve it.

We will trustily report the T1 result to customer and send T1 samples to customers for checking. Sometimes T1 samples need improvement. If more samples are required by customer at first, we will take actions to improve the mold to make sure the product have 0 defects. No shrinkage, warpage, flash, streak, air bubble, step line, ejector mark, and dimension within tolerance.

Package inspection: make sure QTY/color and weight are correct.

Packaging & Shipping

Our ABIS Family

- Why choose us?:
1. More than 20-years experience.
 2. ISO9001:2008 certificated.
 3. Competitive price with high quality.
 4. More than 50 machines support to run the business.
 5. Custom R&D program coordination.
 6. Expert technicians.
 8. Diligent and loyal workforce.
 9. Up-to-date software.
 10. International standards, SAY, HASCO, DME, MISUMI, etc
 11. Well-rounded after service.

Lynn Xiao

ABIS Mold Technology Co.,Ltd.

We will give our best service,quality, price and delivery time !
If you have any question just call me or send E-mail to me please!

FAQ

1. Are you factory?

Yes, we are direct factory, professional on plastic mould, plastic and hardware parts.

2. I have no drawing, how I should do to start the new project ?

You can supply a sample, we will help to finish the 3D drawing design.

3. What is your shipment way?

Sea shipment , air shipment, express shipment for small quantity.

4. Before shipment, how to make sure the products quality?

If you don't come to our factory and also don't have the third party for inspection, we will be as your inspection worker, we just require your trust. We will supply you a video for production process detail include process report, products size, structure and surface detail, packing detail and so on, so you will feel you are in our factory.

5. How is your after-sale service?

We have a very good reputation for our after-sale service, we bear all problem responsibility if they are ours, timely reply and satisfied solving is our strength. Your problems are ours too. So you never need worry the after-sale service.
